

invites its members for an

Online Professional Development/ Knowledge Sharing Session on

BEST PRACTICES IN LEGIONELLA MANAGEMENT

Thursday, 13 January 2022, 10:30 am – 11:00 am

Brian Shelton
President & CEO
Pathcon Laboratories

Brian has decades of experience in the science of Legionella management and testing with offices and testing locations in the US, Dubai, and Europe. In 2020, Brian established a base within the UAE to bring Pathcons expertise to the UAE and MENA region. In addition, received approval to deliver new and innovative legionella testing and sampling protocols to the region.

During the talk, Brian will cover

- Legionella Risks – the most common problems within buildings and water systems
- Heightened risks in during COVID period due to facility closure
- Reference to Legionella management best practice including sampling regimes
- Q&A session
